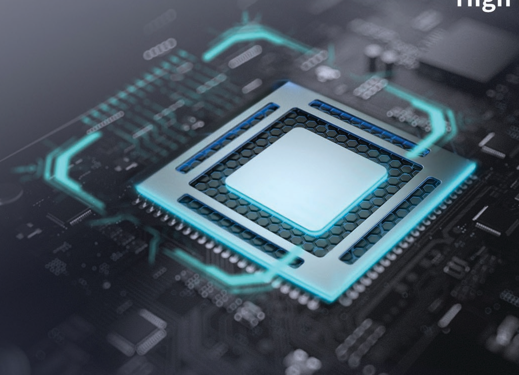
N160/N160BT

2D Handheld Barcode Scanner

The N160 handheld barcode scanner provides fast reliable scanning in an ergonomic, lightweight form

High Performance on Decoding Technology

Superb reading capability with top decoding library
The image is ready for action as soon as it is picked up



Scanning From Longer Distances

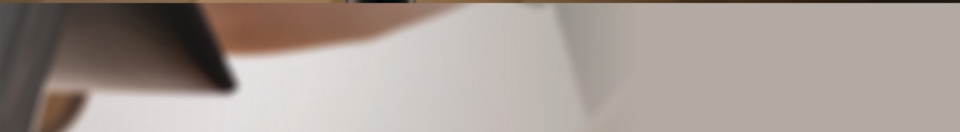
N160 scans out-of-reach items with ease and allows users to scan barcodes from as far as 21.65 inches(550mm) and reads denser barcodes as small as 3 mil.

550 mm
Typical Reading DOF

3 mil
Reading Accuracy

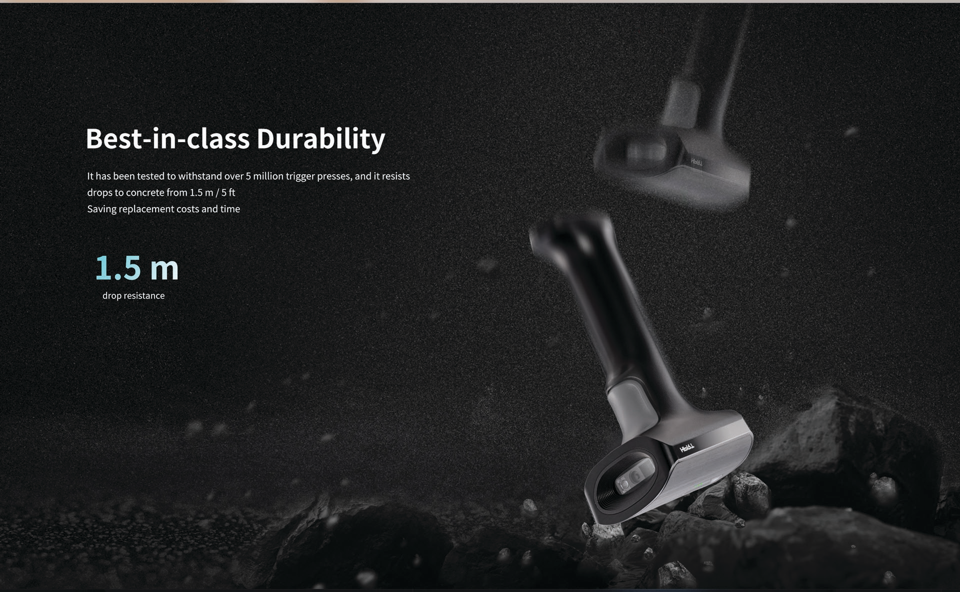
Mega Pixel Sensor

With the unique combination of hardware and advanced decoding technology, the N160 instantly captures the most problematic barcodes with lightning speed, including dense, poorly printed, dirty, extra-long, crinkled, faded, distorted, or damaged barcodes.



Multi Keyboard Languages

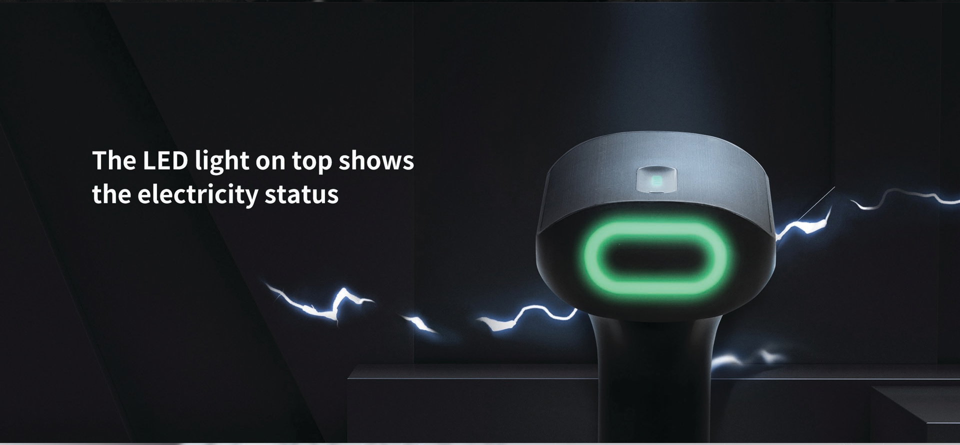
More than 80 countries keyboard language output is supported.



Best-in-class Durability

It has been tested to withstand over 5 million trigger presses, and it resists drops to concrete from 1.5 m / 5 ft
Saving replacement costs and time

1.5 m
drop resistance



The LED light on top shows the electricity status

Convenient Using

Completely Compatible with Multi System:
Windows/iOS/Android/Linux
Allow ease of use with quick plug & play interface

Android | iOS | Windows | Linux

Wireless version
N160BT Plus scanner + ST300 stand

N160 has cord and cordless version. The cordless cradle can be used as a charger and bluetooth dongle

100 m | recharge
